Topic of the event

We cordially invite you to a specialized lecture focused on current trends and innovations in international finance and supply chain management. Our guest speaker, Prof. Sri Talluri, a leading expert in Operations and Supply Chain Management at Michigan State University, will share his extensive experience and analysis of effective strategies in supply chain management and their impact on the global financial landscape.

Prof. Talluri holds a Ph.D. in Production and Operations Management and has over 100 journal publications. He was ranked as a *top 20* researcher globally in data envelopment analysis and in the top 1% in operations management based on his impactful publications in elite journals. His research focuses on supply risk, buyer-supplier relationships, sustainability, and technology management. Prof. Talluri was a Fulbright Distinguished Chair and currently holds an honorary position at the University of Melbourne. He has served in key roles for top-tier journals and conferences and has consulted for major companies like SAP, Chrysler, and Accenture.

This event is organized by SCRC in collaboration with IMS and IES. The lecture is intended for both students and professionals interested in the intersection of the financial sector and the supply chain.
